

GEORGIA CHILD SUPPORT WORKSHEET HELPLINE

PHONE NUMBER: 1-404-526-8609

Georgia's Child Support Worksheets provide the framework for determining the appropriate amount of child support under Georgia law.

The child support calculator is used to enter the financial information of both parents to calculate the appropriate amount of child support according to Georgia's statutory Child Support Guidelines.

Volunteer lawyers from the State Bar of Georgia Family Law Section will assist callers with the calculator and preparing the required Child Support Worksheets. Unrepresented litigants needing help with the child support calculator can call (404) 526-8609. A volunteer lawyer will then work with the caller to prepare Child Support Worksheets for his or her case. The Child Support Worksheets will be emailed or mailed to the caller.
